Enter Your Veggie!

Bring in your entries for the Vegetable Growing Contest by Friday evening, Aug. 27 at 8 p.m. and you may win a fun prize!

Unlike the fair, we're looking for funny, big and unusual stuff. So come in and strut your produce.

Enjoy Fall Flowers

Choose a colorful pansy bowl. It just doesn't get better than this and they smell so sweet. Use fall flowering plants to their advantage in beds, as replacements in your containers and as table decorations.

The cool thing about fall pansies is that if you get them in early enough so they get established and give them a little winter protection, they'll perform for you again in spring; that's *after* they've bloomed well into fall.

Come on in for mums too but don't be surprised when you see them. We like to get the best out of summer so ours are timed to bloom next month. Our mums, both hardy and non-hardy, are FULL of buds!

Lisa's arrangement is nearly ready to be delivered.

Artists at Work

It's a lot of fun to watch our floral designers creating arrangement after arrangement every day. Their skill and experience shows. Just alone the flowers are beautiful but a thoughtful arrangement takes them to a whole new level.
